

DEKK Skid Steer Rubber Tracks have been designed and manufactured with a high level of engineering and precision to ensure they withstand the rigours of earthmoving and construction applications.

The core features and benefits that make DEKK Skid Steer Rubber Tracks (Multi-Bar Pattern) last longer and work harder are:

4 REDUCED VIBRATION AND WEIGHT
resulting in improved operator comfort, reduced noise & fuel consumption and minimised wear & tear on the machine

1 CONTINUOUSLY WOUND HIGH TENSILE STEEL CABLES
prevents corrosion, provides greater strength and durability and eliminates weak points caused by joints found in spiral wound cables

2 COMPREHENSIVE RANGE OF RUBBER TRACKS
to suit leading OEM brands including Kubota, Takeuchi, Terex, Komatsu, CAT, Bobcat, Case and others

3 MULTI-BAR PATTERN FOR LONGER LIFE
Offers a smoother ride, improves traction and reduces surface damage minimising environmental impact

5 HEAVY DUTY RUBBER COMPOUND
provides greater flexibility & wear resistance and minimises punctures & tears, resulting in reduced maintenance & downtime and extended track life

6 PRECISION FITTED STEEL CORE BARS
for maximum strength and reduced risk of detracking

IMPROVED TRACTION & RIDE TREAD DESIGN

TECHNICAL SPECIFICATIONS

Track Width	Pitch	Core Bar	Rubber Compound	Steel Cable	Tread Pattern	Tread Life	Warranty	Suit OEM Brands
250mm to 450mm	86mm to 100mm	Steel	Heavy Duty Natural & Synthetic Fibre Virgin Rubber	Continuously Wound, High Tensile	Multibar	1 to 2yrs*	12mths	Kubota, Takeuchi, Terex, CAT, Bobcat, Case, Komatsu & others

* Based on normal operating conditions of the equipment.

12 MONTH FULL-REPLACEMENT WARRANTY
ON ALL RUBBER TRACKS & PADS

GUARANTEED TO FIT YOUR MACHINE OR YOUR MONEY BACK

DEKK are so confident that their range of Rubber Tracks & Pads will outlast and outperform the competition that they include a 12-month Full Replacement Warranty on tracks & pads sold Australia wide and also offer a guarantee that they will fit your machine or your money back.
